Beirut, Lebanon | Open to Remote Worldwide & Relocation | Available Immediately
alimjdandash@gmail.com | +961 76 652 276 | Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full-stack product engineer building operational software across Flutter mobile and web clients, Node.js and Express APIs, TypeScript, PostgreSQL, MongoDB, authentication, testing, and deployment. Delivered commercial products for real clients, including an accounting and inventory system sold to a grocery store and used daily, and a telecom-services application in active use.

TECHNICAL SKILLS

Core: Flutter, Dart, Node.js, Express, TypeScript, JavaScript, REST APIs, PostgreSQL, MongoDB, SQL

Frontend & Mobile: Flutter, Riverpod, responsive web, Android, React, Next.js, HTML, CSS

Backend & Data: JWT authentication, authorization, Zod, Supabase, Firebase, Cloud Firestore, Hive, data modeling

Delivery & Quality: Git, GitHub, Render, Vercel, automated tests, TypeScript builds, ESLint, debugging

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer | Self-Employed | Sep 2025 - Present

- Lead frontend development for Zouzou, an actively used Flutter telecom-services product for a client, as primary technical contributor in a two-person team.
- Delivered authentication, JWT sessions, balance visibility, transfers, ordering, activity tracking, reseller interfaces, FCM integration, and Android WhatsApp sharing; validated with clean analysis, 8 passing tests, and release builds.
- Built and sold Dafr, a Flutter, Node.js, Express, and MongoDB accounting and inventory system used daily by a grocery store, with ongoing support and updates.

Founder & Network Operations Lead | Nexo | Mar 2025 - Present

- Operate a local internet service supporting approximately 300 active subscribers with one employee; manage MikroTik and Ubiquiti infrastructure, routing, bandwidth, monitoring, troubleshooting, customer support, and collections.

Field Internet Installation & Station Maintenance Technician | NETPRO | 2024 - 2025

- Completed approximately 30 weekly installation or maintenance operations across MikroTik, Ubiquiti, IP networking, wireless, routing, diagnosis, and repair.

Outdoor Internet Technician | New Home | 2023 - 2024 (5 months)

- Delivered field installation and maintenance and resolved hardware, software, connectivity, and backup issues.

Programming Instructor | Al Afaq Institutes | 2022 - 2023

- Taught Java, C#, C++, Microsoft Access, databases, and algorithms to BT2, BT3, and TS1 classes of approximately 30 students.

SELECTED PROJECTS

Phonexa | Flutter, TypeScript, Express, PostgreSQL, Supabase

- Published multi-platform operations system with web, Android, and Windows clients, transactional workflows, authentication, role enforcement, and audit logging; audited with 41 passing server tests and 2 Flutter tests.

SubTrack | Flutter, Riverpod, Hive, Firebase Auth, Cloud Firestore

- Subscription management product with local storage, per-user cloud synchronization, Google sign-in, JSON backup and restore, analytics, and web/Android delivery.

Maliyati | Flutter, Kotlin, Firebase, Firestore, Google Drive, OCR

- Financial records and settlement product with analytics, OCR-assisted input, cloud backup, JSON portability, and native Android quick-entry tools.
