PROFESSIONAL SUMMARY

Full-stack developer building end-to-end operational products across Flutter mobile and web clients, Node.js and Express APIs, TypeScript, PostgreSQL, MongoDB, authentication, testing, and deployment. Delivered commercial software for real clients, including a telecom-services application in active early use and an accounting and inventory system sold to a grocery store and used daily.

TECHNICAL SKILLS

Languages: Dart, TypeScript, JavaScript, SQL, Kotlin, Java, C#, C++

Backend & APIs: Node.js, Express, REST APIs, JWT authentication, Zod, role-based workflows

Frontend & Mobile: Flutter, Next.js, React, Riverpod, responsive web and Android development

Databases: PostgreSQL, MongoDB, Cloud Firestore, Hive, transactional workflows and data modeling

Cloud & Delivery: Supabase, Firebase, Render, Git, GitHub, automated tests, TypeScript builds, ESLint

Additional: Kotlin Android integration, MikroTik and Ubiquiti technical operations

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer | Self-Employed | Sep 2025 - Present

- Lead the frontend development of Zouzou, an actively used Flutter telecom-services application for a real client, as the primary technical contributor in a two-person team.
- Built password and OTP authentication, JWT-backed sessions, balance visibility, service browsing, peer-to-peer transfers, year-service orders, activity tracking, reseller-aware interfaces, FCM integration, and Android WhatsApp sharing.
- Validated Zouzou with clean Flutter analysis, 8 passing tests, and successful release APK builds; the product is in early use by approximately 5 users.
- Built and sold Dafr, a Flutter, Node.js, Express, and MongoDB accounting and inventory system that remains in daily operational use at a grocery store, with ongoing support and updates.

Founder & Network Operations Lead | Nexo (Self-Employed) | Mar 2025 - Present

- Operate a local internet service supporting approximately 300 active subscribers with one employee.
- Own MikroTik and Ubiquiti configuration, station installation and interconnection, routing, bandwidth distribution, monitoring, troubleshooting, maintenance, customer support, and collections.

Field Internet Installation & Station Maintenance Technician | NETPRO | 2024 - 2025

- Installed, configured, linked, and maintained MikroTik and Ubiquiti equipment, completing approximately 30 installation or maintenance operations per week across IP, wireless, routing, diagnosis, and repair work.

Outdoor Internet Technician | New Home | 2023 - 2024 | 5 months

- Delivered field internet installation and maintenance while supporting approximately 10 devices or users; resolved hardware, software, connectivity, and backup issues.

Programming Instructor | Al Afaq Institutes | 2022 - 2023

- Taught Java, C#, C++, Microsoft Access, databases, and algorithms to BT2, BT3, and TS1 classes of approximately 30 students.

SELECTED FULL-STACK PROJECTS

Phonexa | Flutter, TypeScript, Express, PostgreSQL, Supabase

- Built a published operations system spanning Flutter web, Android, and Windows clients, a TypeScript API, transactional PostgreSQL workflows, authentication, role enforcement, and audit logging.
- Verified the audited version with 41 passing server tests, 2 passing Flutter tests, successful TypeScript build and typecheck, and no known production dependency vulnerabilities at audit time.

SubTrack | Flutter, Riverpod, Hive, Firebase Auth, Cloud Firestore

- Built subscription management with local Hive storage, per-user cloud synchronization, Google sign-in, JSON backup and restore, analytics, and web/Android delivery.

Maliyati | Flutter, Kotlin, Firebase, Firestore, Google Drive, OCR

- Built account-isolated financial records, analytics, settlements, OCR-assisted input, Google Drive and Sheets backup, JSON portability, and native Android quick-entry tooling.

EDUCATION

Master 1 (M1), Computer Science - Artificial Intelligence | Lebanese International University | 2022

Completed successfully; certificate awarded.

Bachelor in Computer Science | Lebanese International University | 2017 - 2020

LANGUAGES

Arabic: Native | English: Professional working proficiency | French: Intermediate
